

Thermo Scientific Samco Clicktainer Vial

Unique click seal system providing sample protection and user safety

Thermo Scientific™ Samco™ Clicktainer™ Vial

Providing ultimate sample protection and user safety by ensuring correct cap application the first time

Thermo Fisher Scientific understands the value of patient samples. Sample collection needs to be easy. Sample transport needs to be secure. The Samco Clicktainer vials have a wide opening and leakproof seal. The “click” seal system indicates when the cap is properly applied so the sample is secure.

**CLICK SEAL
SYSTEM**

User Safety and Sample Protection

Clicktainer cap

- Visual, audible and tactile indication of full cap closure
- Safe tab design reduces risk of tear to gloves or break off during use

Pneumatic Transport Tested

- Ideal for use in hospital pneumatic transport systems

Excellent leakproof* performance

- Pressure tested to 95kPa in accordance with BS EN 14401
- Leak tested in accordance with BS EN 14254

Excellent Clarity with Easy to See Graduations

- For visibility of samples within the vial

Stackable

- Optimize sample storage

Choice of Volume with Wide Mouth Design

- 120ml or 90ml volume suitable for most applications
- Wide 53mm opening for ease of sample collection and management

Available both Sterile and Non-Sterile

- Sterilised by gamma radiation for Sterility Assurance Level (SAL) 10^{-6}

CE Mark

- Compliant with the requirements of In Vitro Diagnostic Device Directive 98/79/EC

Knurls on Cap and Base

- Easy to handle with gloved hands

*The term "leakproof" applies to Thermo Scientific Samco Clicktainer products, 90ml/53mm and 120ml/53mm, that meet the following criteria: a) a vacuum test that draws 95 kPa of pressure within a sealed chamber with no leakage; b) leak testing in accordance with BS EN 14254, which involves filling the container with a dye, placing for 2 minutes on a roller mixer followed by 1 hour inverted in a water bath with no leakage. Note: these tests, using other liquids, may not yield the same results. To ensure safe usage, customers are advised to test Thermo Scientific Samco Clicktainer Vials under conditions of their planned applications. Thermo Scientific Samco Clicktainer Vials are leakproof at ambient temperature and pressure when used with their Clicktainer closures.

ISO Compliant: Tested in accordance with the requirements of BS EN 14254 and BS EN 14401 standards

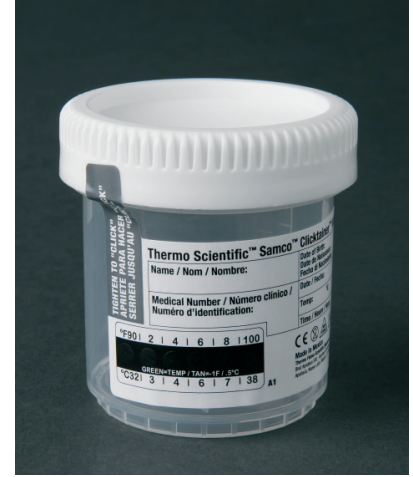

Label Design, Cap Colors and Formats

Clearly designed label for patient fields and required information

- Available with and without Label
- Temperature Strip Label
- Temperature Strip only
- One Label, Multiple Languages - English, Spanish, French
- Required FDA and CE mark information on the label

Wide Range of Cap Colors and Packaging Formats

- Wide range of cap colors helps with sample differentiation and management
- Available as assembled product for general laboratory use, clinical applications and mice necropsy
- Available as separate components for manufacturing automation where suppliers add formalin solution, boric acid, sodium thiosulfate or other reagents for resale into histology, urinalysis, water testing, etc.
- Individual packaged product for sterile environments such as hospital operating rooms and cleanrooms
- Dispenser box ideal for use both in smaller laboratories and doctors offices

Applications

With its innovative closure system the Thermo Scientific™ Samco™ Clicktainer™ Vials are suited for the collection and transport of fluids, solids and powders. This makes them ideal for a wide range of customer applications, from the collection of valuable and often hazardous patient samples such as urine, faeces and sputum and their transportation through hospital pneumatic/vacuum transport systems to their suitability for use with formalin or fixatives for histology applications.

Thermo Fisher Scientific subjects the Samco Clicktainer Vial to a number of rigorous leak test procedures. We conduct a vacuum test that draws 95 kPa of pressure within a sealed chamber followed by leak testing in accordance with BS EN 14254.

In addition these containers have also been tested in a pneumatic transport system.

**PROVIDING
SAMPLE PROTECTION
AND USER SAFETY**

Thermo Fisher Scientific has a full offering of consumables for your laboratory applications. Please contact us for more details.

Product Code	Description	Cap Color	Format	Inner Pack/Case Qty
120mL/53mm				
15702197	SAMCO Clicktainer Vial, Tabbed Label, Sterile	● Orange	Preassembled	75/300
15722197	SAMCO Clicktainer Vial, Tabbed Label, Sterile	○ White	Preassembled	75/300
15732197	SAMCO Clicktainer Vial, No Label, Non-Sterile	○ White	Separate Cap & Vial	300/300
15762197	SAMCO Clicktainer Vial, Non-tabbed Label, Non-Sterile	● Yellow	Preassembled	75/300
15742197	SAMCO Clicktainer Midstream Urine Kit, No Funnel, Sterile	○ White	Preassembled	1/100
15712197	SAMCO Clicktainer Vial, No Label, Peel Pouch, Sterile	● Orange	Preassembled	1/100
15752197	SAMCO Clicktainer Vial, No Label, Peel Pouch, Sterile	○ White	Preassembled	1/100
90mL/53mm				
15782197	SAMCO Clicktainer Vial, Tabbed Label, Sterile	● Orange	Preassembled	100/400
15702207	SAMCO Clicktainer Vial, Tabbed Label, Sterile	○ White	Preassembled	100/300
15772197	SAMCO Clicktainer Vial, Tabbed Label, Green Cap, Sterile	● Green	Preassembled	100/400
15792197	SAMCO Clicktainer Vial, Tabbed Label, Sterile, Dispenser Pack	● Orange	Preassembled	20/320
15712207	SAMCO Clicktainer Vial, Temperature Strip Label, Sterile	○ White	Preassembled	100/300
15722207	SAMCO Clicktainer Vial, Temperature Strip Only, Sterile	○ White	Preassembled	100/400
15732207	SAMCO Clicktainer Vial, Non-Tabbed Label, Non-Sterile	○ White	Preassembled	75/300
15782207	SAMCO Clicktainer Vial, Non-tabbed Label Non-Sterile	● Yellow	Preassembled	100/400
15742207	SAMCO Clicktainer Vial, Temperature Strip Label, Non-Sterile	○ White	Preassembled	300/300
15752207	SAMCO Clicktainer Vial, No Label, Non-Sterile	○ White	Separate Cap & Vial	300/300
15762207	SAMCO Clicktainer Vial, No Label, Non-Sterile	○ White	Preassembled	300/300
15772207	SAMCO Clicktainer Vial, Temperature Strip Only, Non-Sterile	○ White	Preassembled	100/400
