

Axygen® HybridRack™ Pipet Tips

Take care of the environment with Corning

Just like you, Corning takes sustainability seriously and is always looking for ways to reduce our carbon footprint. The HybridRack product does just that, marrying functionality and sustainability by pairing a stable polypropylene deck with an environmentally friendly paperboard base.

Innovative paperboard and plastic hybrid design uses

70% less plastic
than a traditional tip rack

Fully recyclable paperboard base

The paperboard rack is stable enough to pipet from using multi-channel instruments and avoids bending and bowing when mounting a pipet tip.

It can be recycled like any other paper using your local curbside recycling program.

One case of 200 μ L HybridRack tips saves **6.5 lbs. (2.9 kg)** of plastic compared to conventional plastic racks

Durable polypropylene deck

Plastic deck is compatible with Axxygen MultiRack and Corning® DeckWorks™ pipet tip racks

The combination of the stable polypropylene deck and strong paperboard base allow for pipetting directly from the HybridRack.

High quality Axxygen tips

The HybridRack tips have the same consistent and high quality performance as tips in conventional plastic racks.

- Nonpyrogenic
- Human gDNA- and PCR-inhibition-free
- Available with polyethylene filter
- Available with Axxygen Maximum Recovery® surface to improve accuracy and ensure maximum sample recovery

This product is included in Corning EcoChoice™. All products included in the program are produced, packaged, or distributed in an environmentally friendly manner following United States FTC Guidelines. To learn more, go to www.corning.com/EcoChoice.
